Deliver an exceptional candidate and employee experience

In today's competitive market, bringing in new talent and keeping them happy is a challenge. Especially when your tools slow down processes, silo information and provide a less-than-stellar employee experience. With Cloud Content Management from Box, a single content platform enables HR to make recruiting and onboarding incredible for candidates, while keeping current employees productive on best-of-breed apps. By using Box to automate processes and protect employee PII, you can build the workforce you need to win.

"There are so many remote workers, and the number of remote workers is continuing to grow. All the tools we're investing in should fit into that system. I think the remote workforce is the key."

Ravindra Sunku, Director of IT, Stitch Fix
