Flexible Spending and Qualified Transportation Expense Accounts

With the Health FSA, effective 1-1-2023, you will be permitted to have a maximum rollover amount of \$570 of unused expenses. Dependent Care FSA cannot be rolled over.

How long do I have to submit FSA and Dependent Care FSA claims?

You have until December 31st each year to use your FSA for expenses incurred during the year. You will then have until March 31st * of the following year to submit the previous year's claims for reimbursement.

* Due to the Coronavirus Pandemic, updated legislation has extended this timeframe until 60 days after the end of the "Outbreak Period" or one year from the original due date. The maximum period available for an individual will not exceed one year.

What are the Flexible Spending limits for 2023?

The Health FSA limit for 2023 will be \$2,850. The Dependent Care FSA limit will remain at \$5,000.

Are the Health FSA and Dependent Care FSA benefits that continues from year to year?

Health FSA and Dependent Care FSA elections do not automatically continue from year to year. You must actively enroll each year during Open Enrollment and your FSA elections will be in effect from January 1 through December 31, unless you experience a Life Event.

What are Life Events for Health FSA and DC FSA plans?

Qualifying Life Events include the following and require documentation of the event: Marriage, Divorce/Separation, Birth/Adoption, Death of a spouse or dependent child, change in employment status of employee or spouse.

What are some additional events that would allow for changes to DCFSA?

These additional events will also require documentation, from the employee, of the reason for the change. A participant may elect to switch day care centers because of: concerns around administration, quality or staff turnover; a participant has more than one child in day care and wants all children to receive care at the same center; a child being wait-listed for a center and a spot opens; a participant wishes to enroll a child in a newly opened facility; a change in participant's residence or work location makes a new center more convenient; a center requires that a child be moved due to unsafe behavior or parent's frequent late pick-ups. A participant may also be able to change the amount of DCFSA for the year due to change in home-care provider; a participant or spouse has a change in work schedule which changes the hours of child-care required; a child of divorced parents switches residences between parents.

Dependent care elections, that are changed during the year, cannot be decreased to an amount that is below what a participant has already contributed year to date.

HRA and Healthcare FSA

If I have the HRA, can I sign up for the Healthcare FSA?

Yes. An employee is automatically enrolled in the HRA when they enroll in the Core Medical Plan and all benefit eligible employees, including those who have an HRA, can elect the Healthcare FSA.

Do the Healthcare FSA and HRA have the same list of eligible expenses?

No. HRA can only be used for qualified medical expenses, including prescription drugs. The FSA can be used for qualified medical, dental and vision expenses.

If I have the HRA, why would I elect an FSA?

The FSA offers pre-tax savings on medical expenses. One reason any employee may wish to have both accounts would be to use the pre-tax money to help pay for expected expenses that would exceed the amount they would receive through HRA reimbursement.

Leaves

How do I request a Leave?

The reasons for needing a Leave can vary. You may need a Leave for your own pregnancy or for a serious health condition.
